RESEARCH INTERESTS

My research interest lies at the intersection of **multimodal learning**, **natural language processing**, and **machine learning**. I am particularly passionate about advancing *reasoning* and *generalization* abilities in *low-resource* settings across different modalities. By leveraging the power of these fields, I aim to develop innovative approaches that enhance the understanding and processing of multimodal data, ultimately contributing to the development of intelligent systems capable of reasoning and generalizing effectively in resource-constrained environments.

- **Research Keywords:** Multimodal Learning, Natural Language Processing, Machine Learning, Large Language Models, Vision-language Models, Few-shot Learning, Prompt Learning, Transfer Learning.

EDUCATION

University of Southern California, Los Angeles, California — Aug. 2018 – May. 2024

- Ph.D. in Computer Science
- **Advisor:** Xiang Ren

Seoul National University, Seoul, Korea — Feb. 2017

- B.S. in Electrical and Computer Engineering

RESEARCH & WORK EXPERIENCE

Research Intern at **Microsoft Research (MSR)**, Redmond, Washington — Jan. 2022 – Apr. 2022

- **Mentors:** Subho Mukherjee, Yu Cheng, Yelong Shen, and Ahmed H. Awadallah
- **Project:** Grounded Vision-language Pre-training via Aligning Text and Image Regions
  - Developed techniques for generalization to unseen tasks of few-shot VL learners.
  - **Publication:** One preprint [P1] at arXiv.

Research Intern at **Microsoft Azure AI**, Redmond, Washington — June 2021 – Jan. 2022

- **Mentors:** Yu Cheng, Yelong Shen, and Weizhu Chen
- **Project:** Low-resource Prompt-based Learning for Vision-Language Models
  - Proposed zero-/few-shot vision-language learning of smaller models using simple prompts.
  - **Publication:** One paper [C10] published at *ACL 2022*.

Research Intern at **Meta AI**, Menlo Park, California — May. 2020 – Aug. 2020

- **Mentors:** Hamed Firooz and Maziar Sanjabi
- **Project:** Knowledge Distillation for Multimodal Understanding
  - Investigated the importance and effects of each modality in knowledge distillation through saliency-aware techniques for multimodal understanding.
  - **Publication:** One paper [C8] published at *EMNLP 2021 Findings* and One workshop paper [W2] published at *MAI@NAACL 2021*.

Research Assistant at **Seoul National University**, Seoul, Korea — Jan. 2016 – Apr. 2018

- **Advisor:** U Kang
- **Project:** Improving Random Walk with Restart (personalized PageRank)
  - Worked on random walk with restart techniques applied to signed networks [C1, J1], dynamic networks [C2], and edge-labeled graphs [J3]. Proposed supervised random walk with restart [J2].
  - **Publication:** One paper [C1] at *ICDM 2016*, one paper [C2] at *TheWebConf 2018*, and three journal papers [J1, J2, J3].

PATENTS

KOREA

- **Method and Apparatus for Providing Supervised and Extended Restart in Random Walks for Ranking and Link Prediction in Networks** with Jinhong Jung and U Kang. Application number: 10-2017-0131543 (filed on Nov. 10, 2017). Registration number: 10-2048442 (registered on Nov. 19, 2019).
- **Method for Personalized Ranking in Signed Networks, Recording Medium And Device for Performing the Method.** with Jinhong Jung and U Kang. Application number: 10-2017-0005485 (filed on Jan. 12, 2017). Registration number: 10-1866866 (registered on June 05, 2018).

AWARDS & HONORS

- Kwanjeong Educational Foundation Scholarship — Aug. 2018 – 2023
- USC Annenberg Graduate Fellowship — Aug. 2018 – 2023
- Merit-based Scholarship, SNU — 2014, 2015, 2016
- National Scholarship for Science and Engineering, Korea Student Aid Foundation — 2010
